Allow at least 15 full days for comments to be obtained. An Affidavit will be sent at the end of the posting period.

**PUBLIC NOTICE
CITY OF YORKTOWN
COMMUNITY DEVELOPMENT BLOCK GRANT – MITIGATION**

The City of Yorktown invites all citizens to review and comment on a proposed amendment to its 2017 CDBG-MIT Program Contract No. 22-085-080-D404 to address sewer improvements. Yorktown is requesting a Performance Statement Amendment to revise the location, scope, and budget for this Community Development Mitigation contract. The requested changes include:

- The 11th Street Lift Station will include the installation of a plug and switch that will allow the City to connect and disconnect a portable generator.
 - Approximate Location as per the Performance Statement: Intersection of East 12th Street and Range, then south 553', then east to end of road (28.990450, -97.508669)
- The current 8th Street Lift Station will be abandoned and replaced with a new Lift Station at a location north adjacent to the existing one and will include the installation of a plug and switch.
 - Approximate Location as per the Performance Statement: North of the Intersection of West 8th Street and North Range Street (28.986100, -97.509486)
- Due to the 8th Street Lift Station location change, the City will no longer have to pursue acquisition of the land where the old Lift Station sits as the new proposed location is owned by the City. The acquisition budget includes \$34,500.00, which the City would like to move over to the construction budget, increasing the original budget of \$4,908,443.00 to \$4,942,943.00.

A copy of the proposed amendment is available for review during normal business hours at Yorktown City Hall. Written comments may be submitted to 102 W. Main, Yorktown, Texas 78164 for at least 15 days starting on **March 25, 2024** and ending **April 9, 2024**.
